(54) Title: VOICEMAIL SYSTEMS AND METHODS

(57) Abstract: Systems, methods and computer readable media for providing or managing or using voicemails are described. In one embodiment, a method includes receiving, at a first data processing system, data representing an expiration time of a voicemail left for a user of the first data processing system and storing the data representing the expiration time for later use by the first data processing system. Systems, media, and other methods are also described.
